Items reviewed

1 US32200_Windows_Enhance offline experience + action buttons always visible on the WO card

DESCRIPTION

To improve offline usability, Field Engineers will see visual indicators on each Work Order (WO) for offline availability and pending sync status.
2. A numeric badge on the Sync button shows the count of WOs awaiting synchronization.
3. WO cards/lines display either a “saved offline” icon (for downloaded but unmodified WOs) or a “pending sync” icon (for modified WOs awaiting sync)—never both.

FIELDS
